Sommario/riassunto	How do Paulo Freire's ideas echo across time and contexts? What does the dialogical nature of text mean for critical pedagogy today? Inspired by Freire, this text utilizes a dialogical framework, inviting the reader into a deeper conceptual and contextual consciousness through the use of many voices. In this book you will hear from several intellectual generations of Freirean scholars including Nita Freire, Donaldo Macedo, Antonia Darder, Peter McLaren, and Tom Wilson. Freirean Echoes acts as an archive housing the writings of these and other scholars and activists for posterity. A living collection, the book allows for author voices to be in dialogue with each other and with the reader. This collective "talking text" echoes, reverberates, and amplifies critical Freirean ideas, thereby inviting the reader to extend Freirean thought into their lived experiences.
