Sommario/riassunto	The theme of this book is economic transitions of Zhejiang Province under the guidance of "China Dream" policy. It reviews the economic development of Zhejiang Province during the last 10 years and concludes with the experiences and achievements of the local government. As Zhejiang is one of the most economically successful regions in China, the challenges concerning economic transition for the government are a higher priority. This book describes the endeavors

and practices that are accomplished by the local administration in system reforms, private sectors, industrial transition and upgrading, ecological harmony, new urbanization, marine economy and open policies. Case studies, live examples and detailed policy interpretations and conclusions are presented throughout this book. The book will assist scholars and policy makers in discovering how the major statecraft has guided and influenced Chinese economy.
