Sommario/riassunto	The theme of this book is the ecological development of Zhejiang province under the guidance of "China Dream" policy. It reviews the policy and strategy for environmental protection and transition from the extensive economic growth model to ecological economy. The author explores ecological theories and practices in areas such as traditional culture, economic development, environmental protection, rural reconstruction, green urban development and the ecological

civilization system in Zhejiang. As Zhejiang is one of the first economically well-off regions in China, the challenges faced by the government and its solutions under the guidance of the statecraft shall be of interest to scholars and policy makers worldwide. .
