Soggetti	Sustainable development Agricultural economics Engineering economy Industrial management-Environmen Environmental management Sustainable Development Agricultural Economics Engineering Economics, Organization, Logistics, Marketing Sustainability Management Environmental Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Social Life Cycle Assessment of Agricultural Products: Experiences on rice, sugarcane and cassava in Thailand -- A LCA Technique to Measure the Socially Business Responsible Profile: the case of Food Industry -- Case Study on Social Life Cycle Assessment of the Dairy Industry.
Sommario/riassunto	This book highlights the Social Life Cycle Assessment (SLCA) of the agri-sector for rice, sugarcane, and cassava in Thailand and the food sector. It also presents a range of models, indices, impact categories, etc. for SLCA that are currently being developed for industrial applications. Though SLCA was introduced in 2010, it is still relatively new compared to environmental life cycle assessment (ELCA). .
