Autore	Yu Xuezhong
Titolo	Balancing River Health and Hydropower Requirements in the Lancang River Basin / / by Xuezhong Yu, Daming He, Phouvin Phousavanh
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2019
ISBN	981-13-1565-5
Descrizione fisica	1 online resource (290 pages)
Disciplina	621.312134
Soggetti	Environmental Medicine Women Monitoring/Environmental Analysis Environmental Science and Engineering Environmental Health Women's Studies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	River Health Assessment -- Improving River Health Through Mitigation and Monitoring -- Transboundary Environmental Effects of Hydropower -- Changes In Women's Livelihood In Areas Affected By Hydropower Projects -- Case Study: Experience Sharing in Laos -- Synthesis.
Sommario/riassunto	This book assesses river health in the Lancang River Basin with regard to the impacts of hydropower projects. It studies key components of the transboundary effects of Chinese dams on the Lancang River including its hydrology, sediment transport, water temperature, and fish community. It also investigates the specific impacts of hydropower on women's lives and livelihoods, and factors that influence women's participation in river health management. In closing, the lessons learned regarding environmental protection and hydropower development in the Lancang River Basin are shared, e.g. with hydropower developers and regulators in Laos.
