Sommario/riassunto	This book provides a comprehensive account of the theory and practice of takaful, which is an Islamic alternative to insurance. The concepts are explained using real-life case studies, calculations, and exhibits to aid in reader learning and reflection. Takaful, both as an academic subject and as well as practice, is growing particularly in the world leading financial and learning hubs such as in the UK and the USA and countries with large Muslim populations in Asia, Africa, and Middle East.
