Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preliminary Material -- Acknowledgements -- Introduction -- The Strathspey as National Expression in Eighteenth-Century Song and Poetry -- Masterful Narratives: Policing the Public Body and Positioning the Practice of National Dance -- Choreographing Character, 1814-1815: The New Scottish Novels of Walter Scott and Christian Isobel Johnstone -- Unauthorised Women in Scottish Novels, 1814-1824: Social Dance, Fictional Outings, and National Concerns -- Epilogue -- Bibliography -- Index -- 18th- and 19th-century scottish literature.
Sommario/riassunto	Pointed Encounters establishes the literary significance of representations of dance in poetry, song, dance manuals, and fiction written between 1750 and 1830. Presenting original readings of canonical texts and fresh readings of neglected but significant literary works, this book traces the complicated role of social dancing in Scottish culture and identifies the hitherto unexplored motif of dance as an outwardly conforming, yet covertly subversive, expression of Scottish identity during the period. The volume draws upon diverse yet mutually revealing texts, from traditional dance and music to Sir Walter

Scott and contemporary Scottish women novelists, to offer students and scholars of Scottish and English literature a fresh insight into the socio-cultural context of the British state after 1746.

## Sommario/riassunto

This book constitutes the refereed proceedings of the 8th Conference on Artificial Intelligence and Natural Language, AINL 2019, held in Tartu, Estonia, in November 2019. The 10 revised full papers and 2 short papers were carefully reviewed and selected from 34 submissions. The papers are organized according to the following topics: data acquisition and annotation; human-computer interaction; statistical natural language processing; neural language models.
