1. Record Nr. UNINA9910366612403321 Autore Yang Yang Titolo Technical Code for Monitoring of Building Structures / / by Yang Yang Singapore:,: Springer Singapore:,: Imprint: Springer,, 2020 Pubbl/distr/stampa **ISBN** 981-15-1049-0 Edizione [1st ed. 2020.] Descrizione fisica 1 online resource (154 pages) 624.171 Disciplina Soggetti Buildings—Design and construction **Building** Construction Engineering, Architectural Fire prevention Building—Superintendence Construction industry—Management Construction superintendence **Building Construction and Design** Fire Science, Hazard Control, Building Safety Construction Management Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia General -- Nomenclature and symbols -- Basic regulations --Nota di contenuto Hardware installation -- Software system setup -- High-Rise Structure -- Long-span structure -- Heritage asset structure -- Tower structural system -- Other structures -- Pre-warning threshold -- Engineering inspection and approval -- Appendix. This book is used as a reference book for researcher and engineer of Sommario/riassunto the world to learn the building monitoring standard of China for the first time, and is also be used as a reference manual for engineer to engage in practical monitoring projects. The standard for project construction of "Technical Code for Monitoring of Building Structures in Qinghai Province" is the first standard for building structure monitoring engineering in China, which integrates design, construction and

acceptance of monitoring technique. It can be applied to any place in

the world not limited to Qinghai. The standard specifies the warning thresholds for various building structure monitoring parameters. In the monitoring technology, advanced monitoring technologies such as structure group, cloud platform, and BIM are adopted. It has strong operability for monitoring building structures according to the requirement of the standard, provides technical support for ensuring the safety of building structure, and fills in the blank of building structure safety monitoring technology in high and cold high-altitude areas. It contains specific measures to implement housing security for the first time, which is one of the "two without worries and three guarantees" proposed by General Secretary Xi Jinping. It is also used as a reference book for senior undergraduate and graduate students in colleges and universities.
