Pubbl/distr/stampa	HarperCollins UK
ISBN	0-00-722091-X
Disciplina	813.54
Lingua di pubblicazione	Inglese
Formato	Musica
Livello bibliografico	Monografia
Sommario/riassunto	<p>From the Number One international bestselling author of Jurassic Park comes this classic Crichton page-turner, weaving together heart-pounding thrills with cutting-edge technology. In the Nevada desert, an experiment has gone horribly wrong. A cloud of nanoparticles - micro-robots - has escaped from the laboratory. This cloud is self-sustaining and self-reproducing. It is intelligent and learns from experience. For all practical purposes, it is alive. It has been programmed as a predator. It is evolving swiftly, becoming more deadly with each passing hour. Every attempt to destroy it has failed. And we are the prey. As fresh as today's headlines, Michael Crichton's most compelling novel yet tells the story of a mechanical plague, and the desperate efforts of a handful of scientists to stop it. Drawing on up-to-the-minute science fact, PREY takes us into the emerging realms of nanotechnology and artificial distributed intelligence - in a story of breathtaking suspense.</p>

Nota di contenuto	“Practicing the concept of green development, Building a Beautiful China” Press Conference Record -- Ministry of Environmental Protection's Routine Press Conference Record -- Thematic Press Conference Record.
Sommario/riassunto	This book introduces readers to the press release work carried out by China's Ministry of Environmental Protection in 2017. The routine press release work in 2017 was first launched by the Ministry of Environmental Protection (MEP). In 2017, 12 directors of the MEP and three directors of the Environmental Protection Department of the Beijing-Tianjin-Hebei Tribune came together to answer citizens' questions on key social issues such as Environmental Quality Monitoring, Prevention of Air Pollution, Ecosystem Protection, Water Pollution Prevention, Environmental Supervision, Legal Enforcement etc. This book will provide readers with an overview of China's

environmental protection policy initiatives, help raise public awareness of the environment, and lay the foundation for all citizens to participate in environmental governance.
