Chapter Case-Study 2 - The Transcontinental Railroad -- 5. Chapter Case-Study 3 - The Manchester Ship Canal and the World's First Industrial Park -- 6. Conclusions.
Sommario/riassunto	This book examines the management of three projects from the nineteenth century which led to substantial business transformation: the Stockton to Darlington Railway, the US Transcontinental Railroad and the Manchester Ship Canal. The lessons learned are of great relevance to contemporary project management, particularly those concerned with disruptive technology. The book addresses a wide range of project management topics associated with transformation. These include value management, sponsorship, governance, partnerships, opportunity management, project culture and morale,

project complexity, uncertainty, prototyping and piloting, agility,
innovation, risk and knowledge management.
