Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Acknowledgements -- Contents -- List of Figures -- List of tables -- Abbreviations -- Notational conventions -- Chapter 1. Introduction -- Chapter 2. Space in sign languages: background -- Chapter 3. A morpheme on spatial planes -- Chapter 4. Spatial locations and discourse referents -- Chapter 5. Deixis and familiarity -- Chapter 6. Specificity -- Chapter 7. Discourse structure and prominence -- Chapter 8. Final remarks -- Appendix -- Notes -- References -- Index
Sommario/riassunto	Bringing together sign language linguistics and the semantics-pragmatics interface, this book focuses on the use of signing space in Catalan Sign Language (LSC). On the basis of small-scale corpus data, it provides an exhaustive description of referential devices dependent on space. The book provides insight into the study of meaning in the visual-spatial modality and into our understanding of the discourse behavior of spatial locations.
