| Nota di contenuto | Front Matter -- Copyright page -- Preface / David Langlet and Rosemary Rayfuse -- Illustrations -- Table of Cases -- Table of Legislation -- Notes on Contributors -- The Ecosystem Approach in Ocean Planning and Governance: An Introduction / David Langlet and Rosemary Rayfuse -- Cross-Cutting and Critical Perspectives -- Resilience and Adaptive Capacity of Aquatic Environmental Law in the EU: An Evaluation and Comparison of the WFD, MSFD, and MSPD / Niko Soininen and Froukje Maria Platjouw -- The Ecosystem Approach as a Basis for Managerial Compliance: An Example from the Regulatory Development in the Baltic Sea Region / Brita Bohman -- Delimiting Marine Areas: Ecosystem Approach(es?) in EU Marine Management / Aron Westholm -- Land-Sea Interactions and the Ecosystem Approach in Ocean Planning and Governance / Sue Kidd -- The Ecosystem Approach and Sustainable Development in Baltic Sea Marine Spatial Planning: The Social Pillar, a 'Slow Train Coming' / Michael Gilek , Fred Saunders and Ign Stalmokait -- The Ecosystem Approach for the Marine Environment and the Position of Humans: Lessons from the EU Natura 2000 Regime / Kees Bastmeijer -- Participation and Collaboration -- The Ecosystem Approach and Public Engagement in Ocean Governance: The Case of Maritime Spatial Planning / Antonia Zervaki -- Embedding Law in Participatory Processes Enables an Ecosystem Approach to Marine Decision Making: Analysis of a North Sea Example / Anne-Michelle Slater and Alison MacDonald -- Thematic and National Perspectives and Experiences -- The Ecosystem Approach and the Common Fisheries Policy / Jill Wakefield -- The Challenges of Applying the Ecosystem Approach to Spatial Planning in the EEZ: German Experiences / Eva Schachtner -- Ecosystem-Based Approaches to Ocean Management in the United States: Weaving Together Multiple Strands / David Fluharty -- Implications of the Ecosystem-Based Approach to Wetlands Management on the Kenyan Coast / Collins Odote -- Conclusion and Outlook -- Challenges in Implementing the Ecosystem Approach: Lessons Learned / David Langlet and Rosemary Rayfuse -- Back Matter -- Index. |
| Sommario/riassunto | The Ecosystem Approach in Ocean Planning and Governance takes stock of the challenges associated with implementing an ecosystem approach in ocean governance. In addition to theorizing the notion of Ecosystem Approach and its multifaceted implications, the book provides in depth analyses of lessons learned and remaining challenges associated with making the Ecosystem Approach fully relevant and operational in different marine policy fields, including marine spatial planning, fisheries, and biodiversity protection. In doing so, it adds much needed legal and social science perspectives to the existing literature on the Ecosystem Approach in relation to the marine environment. While focusing predominantly on the European context, the perspective is enriched by analyses from other jurisdictions, including the USA. |
