1. Record Nr. UNINA9910367718903321 Autore Desvousges William H Titolo Measuring nonuse damages using contingent valuation : An experimental evaluation of accuracy Research Triangle Park, NC,: RTI Press/RTI International, 2010 Pubbl/distr/stampa Descrizione fisica 1 electronic resource (254 p.) RTI Press Publication; BK-0001-1009 Collana Soggetti SCI043000 Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Sommario/riassunto This second edition of Measuring Nonuse Damages Using Conjoint Valuation is essentially a reprint of a 1992 monograph that has been in steady demand since its original appearance. The RTI Press edition, which is intended to meet continued inquiries and requests for the monograph, contains a Foreword and a Preface to the second edition that put the original work into historical perspective. These studies of ways to value stated preferences, as applied then to the Exxon Valdez oil spill, continue to be a timely and still-rigorous examination of such methods; even with the passage of time and statistical advances from the past two decades, the conclusions and insights as to whether and how these techniques might still be employed in valuing use or nonuse

losses from similar events remain valid.
