

1. Record Nr.	UNINA9910779023903321
Autore	Smith Harold Ivan <1947-, >
Titolo	Borrowed narratives : using biographical and historical grief narratives with the bereaving / / Harold Ivan Smith
Pubbl/distr/stampa	New York : , : Routledge, , 2012
ISBN	1-136-70938-X 1-280-66061-9 9786613637543 1-136-70939-8 0-203-81475-4
Descrizione fisica	1 online resource (303 p.)
Disciplina	155.9/370922
Soggetti	Grief Bereavement Narrative therapy Autobiography - Therapeutic use Bibliotherapy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Borrowed Narratives; Copyright; Contents; Preface; Acknowledgements; Part 1. Borrowing as a Process; Chapter 1. Why Borrow Narratives?; Chapter 2. Mining Narratives; Chapter 3. Constructing a Grief Grid; Chapter 4. Chaining Borrowed narratives; Chapter 5. Diversifying Borrowed narratives; Chapter 6. Borrowing Memoirs; Chapter 7. Using Borrowed Narratives; Chapter 8. Borrowing for Loss of Animal Companions; Part II. A Sample of Borrowed Narratives; Chapter 9. A Griever Named Nelson; Chapter 10. A Griever Named Jacqueline; Chapter 11. A Griever Named Corazon Chapter 12. A Griever Named C. S. Chapter 13. Grievers Named King; Conclusion; References; Author Index; Name Index; Subject Index
Sommario/riassunto	What do Dexter King, Condoleeza Rice, Mackenzie King, Corazon Aquino, Eleanor Roosevelt, Bill Cosby, Tony Dungy, Theodore Roosevelt, George H. W. and Barbara Bush, Caroline Kennedy, Arthur

Ashe, Lady Bird Johnson, Colin Powell and C. S. Lewis have in common? They all have significant grief experiences that have shaped their lives in dramatic ways, stories that have also shaped our lives. Grieving individuals, through ""borrowing narratives,"" look for inspiration in biographic, historical and memoir accounts of political and religious leaders, celebrities, sports figures, and cultura

2. Record Nr.	UNINA9910367740903321
Autore	Pulido Rafael
Titolo	Dual Specificity Phosphatases: From Molecular Mechanisms to Biological Function
Pubbl/distr/stampa	MDPI - Multidisciplinary Digital Publishing Institute, 2019
ISBN	3-03921-689-9
Descrizione fisica	1 online resource (240 p.)
Soggetti	Biology, life sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Dual specificity phosphatases (DUSPs) constitute a heterogeneous group of protein tyrosine phosphatases with the ability to dephosphorylate Ser/Thr and Tyr residues from proteins, as well as from other non-proteinaceous substrates including signaling lipids. DUSPs include, among others, MAP kinase (MAPK) phosphatases (MKPs) and small-size atypical DUSPs. MKPs are enzymes specialized in regulating the activity and subcellular location of MAPKs, whereas the function of small-size atypical DUSPs seems to be more diverse. DUSPs have emerged as key players in the regulation of cell growth, differentiation, stress response, and apoptosis. DUSPs regulate essential physiological processes, including immunity, neurobiology and metabolic homeostasis, and have been implicated in tumorigenesis, pathological inflammation and metabolic disorders. Accordingly, alterations in the expression or function of MKPs and small-size atypical DUSPs have consequences essential to human

disease, making these enzymes potential biological markers and therapeutic targets. This Special Issue covers recent advances in the molecular mechanisms and biological functions of MKPs and small-size atypical DUSPs, and their relevance in human disease.
