

1. Record Nr.	UNINA9910370039003321
Autore	Zhao Qingqing
Titolo	Embodied Conceptualization or Neural Realization : A Corpus-Driven Study of Mandarin Synaesthetic Adjectives // by Qingqing Zhao
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-329-315-2
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (151 pages) : illustrations
Collana	Frontiers in Chinese Linguistics, , 2522-5308 ; ; 10
Disciplina	415
Soggetti	Linguistics Corpora (Linguistics) Chinese language Theoretical Linguistics Corpus Linguistics Chinese
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Chapter 1 -- Introduction to synaesthesia -- Chapter 2 Methodology: A corpus-driven approach -- Chapter 3 Mandarin tactile adjectives -- Chapter 4 Mandarin gustatory adjectives -- Chapter 5 Mandarin visual, auditory, and olfactory adjectives -- Chapter 6 Mandarin compound adjectives combining different modalities -- Chapter 7 From linguistic synaesthesia to Conceptual Metaphor Theory and embodiment -- Chapter 8 Conclusion.
Sommario/riassunto	This book focuses on linguistic synaesthesia in a hitherto less-studied language – Mandarin Chinese – and adopts a corpus-driven approach to support the analysis and argumentation. The study identifies directional tendencies and underlying mechanisms for Mandarin synaesthetic adjectives. By doing so, it not only provides an added layer of understanding for theories of linguistic synaesthesia, but also offers evidence to help refine previous theories, such as Embodiment Theory and Conceptual Metaphor Theory. In brief, the book makes a significant contribution to the development of Cognitive Linguistics. The intended readership includes, but is not limited to, graduate students in linguistics and researchers interested in Chinese linguistics in

particular, and in lexical semantics and cognitive linguistics in general.
