Sommario/riassunto	This book is a comparative corpus-based study of discourse markers based on verbs of saying in English and French. Based on a wide comparable web corpus, the book investigates how discourse markers work in discourse, and compares their differences of position, scope and collocations both cross-linguistically and within single languages. The author positions this study within the wider epistemological background of the French-speaking 'enunciative' tradition and the English-speaking 'pragmatic' tradition, and it will be of particular interest to students and scholars of semantics, pragmatics and

contrastive linguistics. Laure Lansari is Associate Professor at Paris Diderot University, France, where she teaches English/ French contrastive linguistics and translation.
