   ISBN                 3-030-37337-1

   Edizione             [1st ed. 2019.]

   Descrizione fisica   1 online resource (XXI, 604 p. 231 illus., 126 illus. in color.)

   Collana              Security and Cryptology, , 2946-1863 ; ; 11982

   Disciplina           005.8

   Soggetti             Data protection
                        Image processing - Digital techniques
                        Computer vision
                        Computer engineering
                        Computer networks
                        Software engineering
                        Data and Information Security
                        Computer Imaging, Vision, Pattern Recognition and Graphics
                        Computer Engineering and Networks
                        Software Engineering
                        Computer Communication Networks

   Lingua di pubblicazione   Inglese

   Formato              Materiale a stampa

   Livello bibliografico    Monografia

   Sommario/riassunto   The two volumes LNCS 11982 and 11983 constitute the proceedings of the 11th International Symposium on Cyberspace Safety and Security, CSS 2019, held in Guangzhou, China, in December 2019. The 61 full papers and 40 short papers presented were carefully reviewed and selected from 235 submissions. The papers cover a broad range of topics in the field of cyberspace safety and security, such as authentication, access control, availability, integrity, privacy, confidentiality, dependability and sustainability issues of cyberspace. They are organized in the following topical sections: network security;

system security; information security; privacy preservation; machine learning and security; cyberspace safety; big data and security; and cloud and security; .
