

1. Record Nr.	UNINA9910372745203321
Autore	Kane Carolyn L
Titolo	High-Tech Trash : Glitch, Noise, and Aesthetic Failure
Pubbl/distr/stampa	Oakland, : University of California Press, 2019
Descrizione fisica	1 online resource (253)
Collana	Rhetoric & Public Culture: History, Theory, Critique ; ; 1
Disciplina	700.1/05
Soggetti	Communication studies Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Frontmatter -- Contents -- List of Figures and Tables -- Acknowledgments -- Introduction: "Welcome to the Failure Age" -- 1. Colors of Error: Innovation and Failure from Plato to Digital Signal Processing -- 2. Avant-Garde Glitch: Red Noise, Purple Haze, Black Box -- 3. Color as Signal/Noise -- 4. Visual Noise in the New Photography -- 5. Chroma Glitch: Data as Style -- 6. The X-Ray Sublime -- 7. Landscape as Data: From the Classical to the Consumer-Mathematical -- Postscript: Miraculous Plastic's Retrograde Sublime -- Notes -- Bibliography -- Index
Sommario/riassunto	High-Tech Trash: Glitch, Noise, and Aesthetic Failure maps an archaeology of failure in a culture seemingly ill-equipped to deal with it. To better understand failure, Kane argues, we must abstract from our subjective, personal disappointments and see them as meaningful symbols of a broader human struggle. By connecting twenty-first century digital aesthetics to critical issues in the history of high-tech, the book elucidates what it means to be an error-prone, fallible human in an age of hyper technology; to fail again and again without recourse to anything but repetition.
