Sommario/riassunto

Akh Purattim ou « les rives de l'Euphrate » est une des expressions utilisées au xviii^e siècle av. J.-C. pour désigner le royaume de Mari, qui s'étendait de la confluence du Khabour au verrou de Baghouz, actuellement à la frontière syro-irakienne. La série ainsi dénommée, précisée par son sous-titre « Mémoires d'archéologie et d'histoire régionales interdisciplinaires », est destinée à devenir le point de rencontre des recherches historiques, archéologiques, épigraphiques ou archéométriques sur la région, en faisant en priorité appel aux travaux engagés par les diverses missions, françaises (Mari, Terqa...) et étrangères, en particulier pour la publication de leurs rapports préliminaires. Mais le titre peut également être pris dans une acception géographique beaucoup plus vaste et héberger des études qui s'intéressent le plus largement possible au rôle de cette confluence dans le jeu syro-mésopotamien tout au long de l'Antiquité. Akh Purattim or "the banks of the Euphrates" is one of the expressions used in the 18th century B.C. to designate the kingdom of Mari, which extended from the confluence of the Khabur to the glacial cross cliff of Baghuz, today the Syrian-Iraqi border. The series thus named, defined by its subtitle Mémoires d'archéologie et d'histoire régionales interdisciplinaires, is intended to become the meeting point for historical, archaeological, epigraphic and archaeometric research on the region, with priority given to the work conducted by the various missions, French (Mari, Terqa...) as well as foreign, in particular the publication of their preliminary reports. But the title can also include a larger geographic area and cover studies which are concerned as widely as possible with the role of this confluence in Syro-Mesopotamian history throughout Antiquity.

Sommario/riassunto	In a world where basic human rights are under attack and discrimination widespread, Advancing Equality reminds us of the critical role of constitutions in creating and protecting equal rights. Combining a comparative analysis of equal rights in the constitutions of all 193 countries with inspiring stories of activism and powerful court cases from around the globe, the book traces the trends in

constitution drafting over the past half century, and examines how stronger protections against discrimination have transformed lives. Looking at equal rights across gender, race and ethnicity, religion, sexual orientation and gender identity, disability, social class, and migration status, the authors uncover which groups are increasingly guaranteed equal rights in constitutions, whether these rights on paper have been translated into practice, and which nations and protections from discrimination lag behind. As the book reveals, beyond countering discrimination, advancing equality requires fulfilling everyone's fundamental rights to health and education, essential social and economic rights. Serving as a comprehensive call to action for anyone who cares about their country's future, *Advancing Equality* challenges us to remember how far we all still must go for equal rights for all.
