Nota di contenuto	Part 1 Innovating World-Class Technology-Based Higher Education in China: Concept and Practice -- Chapter 1 Pathway on Creating World-Class Higher Education in China -- Chapter 2 Overview on Technology-Oriented Innovation in China -- Chapter 3 Models on Technology-Oriented Innovation in China -- Chapter 4 World-Class Universities: Efforts and Practices -- Chapter 5 Chinese Literature Review on the Study of World-Class Universities -- Chapter 6 Trends on Technology-Oriented Innovation In China -- Chapter 7 Practice on Technology-Oriented Innovation Higher Education in China -- Chapter 8 Implications on Technology-Oriented Innovation Higher Education in China.
Sommario/riassunto	This book examines how to create world-class, technology-oriented innovation in higher education in China. It also proposes a model in response to the demand for promoting scientific and technological advances and technological innovation in the Chinese higher education system. Moreover, the book explores key concepts, pathways, models,

policies, practices, trends and implications, and offers insights into fostering innovation in higher education. Lastly, it discusses how public policy theories can be applied to promote university technology transfer in order to create world-class universities in today's China.
