

1. Record Nr.	UNINA9910700812203321
Titolo	Results from a pressure sensitive paint test conducted at the National Transonic Facility on test 197 [[electronic resource]] : the common research model / / A Neal Watkins ... [and others]
Pubbl/distr/stampa	Hampton, Va. : , : National Aeronautics and Space Administration, Langley Research Center, , [2011]
Descrizione fisica	1 online resource (17 pages) : color illustrations
Collana	NASA/TM ; ; 2011-217065
Altri autori (Persone)	WatkinsA. Neal
Soggetti	Cryogenics Pressure sensitive paints Lessons learned
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Sept. 27, 2011). "February 2011."
Nota di bibliografia	Includes bibliographical references (pages 15-17).

2. Record Nr.	UNINA9910373951703321
Titolo	Thoracic Radiology : A Guide for Beginners // edited by Iacopo Carbone, Michele Anzidei
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-35765-1
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XIV, 174 p. 129 illus., 44 illus. in color.)
Disciplina	617.5407572
Soggetti	Radiology Oncology Surgery Respiratory organs - Diseases Pneumology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Thoracic anatomy -- Glossary -- Lung nodules -- Lung cancer staging -- Mediastinal masses -- Imaging of the lung after surgery, radiation therapy and chemotherapy -- Pneumonia and bronchiolitis -- Interstitial lung disease -- Pleural pathology -- Chest x-ray interpretation.
Sommario/riassunto	This book offers a comprehensive overview of all major pathologic conditions involving the lung and mediastinum and the related diagnostic procedures. Oncologic and non-oncologic conditions are reviewed and described in detail, featuring, besides normal anatomy, also high quality images from several modalities (including X-ray, CT, MR and PET), as well as b/w and color illustrations and line drawings. Complications associated with surgical and oncological treatments are also presented in detail with extensive imaging examples. The book provides a thorough coverage of the topic of thoracic imaging, yet considering a concise and synthetic approach essential to optimal learning. The book will be a useful reference guide for the everyday clinical practice of young radiologists, residents and medical students.
