

1. Record Nr.	UNINA9910373958703321
Titolo	Endoscopic Treatment Strategy for Upper GI Tract Neoplasms // edited by Junko Fujisaki
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-329-737-9
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (VII, 90 p. 84 illus., 80 illus. in color.)
Disciplina	616.99433059
Soggetti	Gastroenterology Abdomen - Surgery Minimally invasive surgery Cancer - Surgery Abdominal Surgery Minimally Invasive Surgery Surgical Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part I Esophagus -- Chapter 1 Esophageal cancer:Barrett's esophageal adenocarcinoma (BEA) -- Chapter 2 Esophageal cancer: Squamous cell carcinoma (SCC) -- Chapter 3 Esophageal benign tumor -- Part II Stomach -- Chapter 4 Gastric cancer, ESD absolute indication, relatively indication, extraindication -- Chapter 5 Gastric adenoma -- Chapter 6 Gastric polyp: inflammatory fibrinoid polyp, Hyperplastic polyp, Gastric inverted hamartomatous polyp -- Chapter 7 Gastric SMT (leiomyoma, GIST, etc) and LECS -- Part III Doodenum -- Chapter 8 Adenoma -- Chapter 9 Adenocarcinoma ESD amd EMR.
Sommario/riassunto	This book presents various cases of upper GI tract neoplasms, discussing endoscopic diagnostic procedures and treatment strategies, such as white light endoscopy (WLE), magnified endoscopy with narrow band imaging (NBI) and endoscopicultrasonography (EUS). Focusing on the esophagus, stomach and duodenum, it provides user-friendly, practical information on these innovative approaches, and explores treatments, pathological insights, including target biopsy, and therapies for specific cases. Endoscopic Treatment Strategy for Upper

GI Tract Neoplasms appeals to a wide readership, from trainees to experienced gastroenterologists. It presents research evidence to broaden readers' understanding and enable them to optimize outcomes for patients.
