Sommario/riassunto	Welcome to the 8th ACM/SPEC International Conference on Performance Engineering (ICPE), taking place in L'Aquila, Italy, in April 22-26, 2017. The goal of ICPE is to integrate theory and practice in the field of performance engineering by providing a forum for sharing ideas and experiences between industry and academia. ICPE grew out of the ACM Workshop on Software Performance (WOSP Est. 1998) and the SPEC International Performance Engineering Workshop (SIPEW Est. 2008). It is a great pleasure to introduce the exciting program for this year's conference in which researchers and practitioners present their latest research, newest innovations, and vision for the future of performance engineering.
