	Sommario/riassunto	The peer-reviewed conference track at FIRE is continuing for the forth time this year. Its scope has significant overlap with that of ACM SIGIR. We have been fortunate enough to have a wonderful program committee this year too. The time and effort put in by the reviewers have helped us to maintain the quality of the conference. The authors have been provided with a highquality review of their submissions. We are very thankful to the reviewers for the same.
