

1. Record Nr.	UNINA9910376043303321
Autore	Notare Mirela S. M. A.
Titolo	DIVANet '17 : Proceedings of the 6th ACM Symposium on Development and Analysis of Intelligent Vehicular Networks and Applications : November 21-25, 2017, Miami, FL, USA / / Mirela S. M. A. Notare, Rodolfo Coutinho ; Association for Computing Machinery-Digital Library, contributor
Pubbl/distr/stampa	New York, NY : , : ACM, , 2017
Descrizione fisica	1 online resource (152 pages)
Disciplina	353.0
Soggetti	Automotive computers - Access control
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>We are pleased to welcome you to the Seventh ACM International Symposium on Design and Analysis of Intelligent Vehicular Networks and Applications (DIVANet'17), held in conjunction with the 20th ACM International Conference on Modeling, Analysis and Simulation of Wireless and Mobile Systems (MSWiM'17), in Miami Beach, USA on November 21 to 26, 2017. The Seventh ACM DIVANet'17 International Symposium aims to provide researchers and practitioners with a venue to disseminate and share state-of-the-art research on vehicular networks, intelligent transportation systems and wireless mobile ad hoc networking. Every paper submitted has been peerreviewed by at least two referees from the Technical Program Committee. We have received a large number of papers and due to the time limitation, we could only accommodate fifteen papers, which represent a 29% acceptance rate. Finally, we would like to thank the authors for their paper contributions and all the reviewers for their timely feedbacks. We hope you will find this program interesting and that the symposium provides you with a forum of discussion and an opportunity to share ideas with other researchers and specialists from around the world.</p>
