### Sommario/riassunto

The third in a series that explores cultural and ethical values in  
Classical antiquity, this volume examines the dichotomy between 'city'  
and 'country' in ancient Greek and Roman cultures. Fourteen papers  
address a variety of topics on this theme, and include a variety of  
methodological approaches—archaeological, iconographic, literary and  
philosophical. The book demonstrates that, despite a common rhetoric  
of polarity in antiquity that tended to construct city and countryside as  
very distinct, oppositional categories, there was far less consistency  
(and far more nuance) about the ideologies felt to inhere in each.

| Sommario/riassunto      | This book gathers the proceedings of the 7th IFToMM International<br>Conference on Mechanisms, Transmissions, and Applications<br>(MeTrApp), held in Taoyuan City, Taiwan, on September 1–3, 2025; this<br>book covers topics such as mechanism and machinery design, parallel<br>manipulators, robotics and mechatronics, control applications,<br>mechanical transmissions, cam and gear mechanisms, and dynamics of<br>machinery. MeTrApp provided researchers, scientists, industry experts,<br>and graduate students from around the globe with a platform to share<br>their cutting-edge work on mechanisms, transmissions, and their<br>applications. The proceedings extend this platform to all researchers,<br>scientists, industry experts, and students interested in these fields. |
