

1. Record Nr.	UNINA9910377820303321
Autore	Zhao Ning
Titolo	Digital Management of Container Terminal Operations / / by Ning Zhao, Yuan Liu, Weijian Mi, Yifan Shen, Mengjue Xia
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	9789811529375 981152937X
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XIII, 309 p. 241 illus., 220 illus. in color.)
Disciplina	658.5
Soggetti	Engineering economy Transportation engineering Traffic engineering Business logistics Computational intelligence Artificial intelligence Application software Engineering Economics, Organization, Logistics, Marketing Transportation Technology and Traffic Engineering Logistics Computational Intelligence Artificial Intelligence Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Operation Management in the Container Terminal -- Management of the Vessel Unloading Operations in the Container Terminal -- Management of Container Delivery in the Container Terminal -- Management of Container Collection Operations in the Container Terminal. .
Sommario/riassunto	This book presents a comprehensive study on intelligent container terminals. Based on the development experience gained to date with container terminals, it analyzes information flows and their interactions with container terminals; illustrates the operation management process

from information collection to resource planning and from equipment scheduling to field operation; highlights several dynamic decision-making problems concerning digital operation processes and container terminals; reveals the basis of the discrete logistics system; and discusses the future of intelligent container terminals. .
