| Note generali | Refereed/Peer-reviewed |

Sommario/riassunto

Clinical Parkinsonism and Related Disorders will be an online-only open access journal committed to publishing high quality peer reviewed articles related to clinical aspects of movement disorders which broadly include phenomenology (interesting case/case series/rarities), investigative (for e.g. genetics, imaging), translational (phenotype-genotype or other) and treatment aspects (clinical guidelines, diagnostic and treatment algorithms). In addition, the journal will encourage the publication of educative material (solicited and unsolicited reviews), clinical-pathological cases, drug trials result, and task force reports related to the field of movement disorders.
