

1. Record Nr.	UNINA9910380728403321
Autore	Fornage Bruno D
Titolo	Interventional Ultrasound of the Breast : From Biopsy to Ablation / / by Bruno D. Fornage
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-20829-X
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XVIII, 460 p. 642 illus., 488 illus. in color.)
Disciplina	618.1907543
Soggetti	Radiology Interventional radiology Ultrasound Interventional Radiology Diagnostic Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Ultrasound-Guided Percutaneous Needle Biopsies -- Localization of Nonpalpable Lesions -- Other Ultrasound-Guided Interventional Procedures -- Percutaneous Ablation of Breast Masses. .
Sommario/riassunto	This book is the premier guide to ultrasound-guided interventions of the breast. Written by Bruno D Fornage, a world-renowned leader in the fields of breast ultrasound and ultrasound-guided interventions, it covers in detail techniques of freehand ultrasound-guided breast biopsy, placement of post-biopsy markers, localization of nonpalpable lesions, and percutaneous ablation of breast masses. A large part of the book describes the highly effective combined use of fine-needle aspiration and core-needle biopsy during the staging of breast cancer; this combination has been used successfully by the author at MD Anderson Cancer Center for 3 decades. Throughout the book, the author shares numerous tips and tricks, many of which have not been published before. With over 1300 figures and 200 videoclips depicting ultrasound-guided procedures, Interventional Ultrasound of the Breast is the authoritative resource for breast imagers, interventional radiologists, surgical breast oncologists, pathologists, and anyone who

embarks on ultrasound-guided breast biopsies and other breast procedures. In addition, the techniques described in this book are applicable to many other areas of the body, including the thyroid and soft tissues.
