	Titolo	The economic development of Lybia : report of a mission organized by the International Bank for Reconstruction and Development at the Request of the Government of Lybia
	Pubbl/distr/stampa	Baltimore : Johns Hopkins University Press, 1960
	Descrizione fisica	XVII ; 524 p. ; 24 cm
	Locazione	SE
	Collocazione	S F/1.111 WB/60
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNISA990000279840203316
	Autore	MUNINDO, Achaan
	Titolo	La via del benessere : gioia , dolore e rinuncia sulla via del Buddha / Achaan Munindo ; [traduzione di Livia Adele Candiani]
	Pubbl/distr/stampa	Roma : Ubaldini, 1999
	ISBN	88-340-1311-5
	Descrizione fisica	109 p. ; 21 cm
	Collana	Civiltáa dell'Oriente
	Disciplina	294.3442
	Soggetti	Buddismo Vita spirituale
	Collocazione	II.2. 2783(II Is Coll.4 10)
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia

3. Record Nr.	UNINA9910383831803321
Titolo	Hodgkin Lymphoma : A Comprehensive Overview / / edited by Andreas Engert, Anas Younes
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-32482-6
Edizione	[3rd ed. 2020.]
Descrizione fisica	1 online resource (IX, 509 p. 102 illus., 83 illus. in color.)
Collana	Hematologic Malignancies, , 2197-9774
Disciplina	616.42
Soggetti	Hematology Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part I: Epidemiology and Pathogenesis -- Epidemiology of Hodgkin Lymphoma -- The role of viruses in the genesis of Hodgkin Lymphoma -- Pathology and molecular pathology of Hodgkin Lymphoma -- Microenvironment, cross-talk and immune escape mechanisms.-What will we learn from Genomics and Proteomics in Hodgkin Lymphoma? -- Part II: Diagnosis and first-line treatment -- Clinical evaluation -- Functional imaging in Hodgkin Lymphoma -- Prognostic factors. - Principles of Radiation Therapy for Hodgkin Lymphoma -- Principles of chemotherapy in Hodgkin Lymphoma -- Treatment of early favorable Hodgkin Lymphoma -- Treatment of early unfavorable Hodgkin Lymphoma -- Treatment of advanced-stage Hodgkin Lymphoma -- Optimizing Decision Making in HL -- Part III: Special clinical situations -- Paediatric/adolescent Hodgkin Lymphoma -- The management of elderly patients with Hodgkin Lymphoma -- Nodular Lymphocyte-Predominant Hodgkin Lymphoma -- The management of Hodgkin Lymphoma during pregnancy -- The management of HIV-Hodgkin Lymphoma -- Part IV: Relapsed and refractory disease -- Relapsed and refractory Hodgkin Lymphoma -- Allogeneic transplantation for relapsed Hodgkin Lymphoma -- Targeting CD30 in Patients with Hodgkin Lymphoma -- Hodgkin Lymphoma and PD-1 blockade -- Other new agents for Hodgkin Lymphoma -- Part V: Survivorship -- Quality of Life in Hodgkin lymphoma -- Second malignancy risk after

treatment of Hodgkin Lymphoma -- Cardiovascular and pulmonary late effects -- Gonadal dysfunction and fertility preservation in Hodgkin Lymphoma patients -- Fatigue.

Sommario/riassunto

This book, now in its third edition, examines the current treatment options for first-line, relapsed, and refractory Hodgkin lymphoma and the appropriate management in special clinical circumstances, including in the elderly, pregnant women, and those with nodular lymphocyte-predominant disease (NLPHL). Careful attention is devoted to the emerging individually tailored treatment strategies, including checkpoint inhibition, that are especially appealing given their potential to reduce early and late treatment side effects in this generally young patient population. In addition, clear guidance is provided on the management of Hodgkin survivors. Other topics addressed include epidemiology, pathogenesis, the role of the microenvironment, initial clinical evaluation, imaging diagnosis, use of staging systems, and prognostic factors. The new edition of Hodgkin Lymphoma: A Comprehensive Overview has been revised and updated by key opinion leaders to reflect recent progress in the field. It will be of great value to hematologists, oncologists, and all others with an interest in Hodgkin lymphoma.
