

1. Record Nr.	UNINA9910389519403321
Titolo	1834-2019 - IEEE Standard for Technology Supervision Code for Wind Turbine Rotor Systems // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, New York : , : IEEE, , 2020
ISBN	1-5044-6256-4
Descrizione fisica	1 online resource (22 pages)
Disciplina	629.8
Soggetti	Supervisory control systems Computational complexity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	As a significant part of wind turbine, the rotor system of wind turbine has the functions of transforming wind energy, and balancing power, load and noise, it is critical to the wind turbine safety and economical operation. A rotor system consists of blade, hub, pitch system and yaw system. A technical supervision code for each part of the rotor system to improve the safety and normal operation is specified in this standard.
