

1. Record Nr.	UNINA9910392714503321
Titolo	Small-Scale Fisheries in Europe: Status, Resilience and Governance // edited by José J. Pascual-Fernández, Cristina Pita, Maarten Bavinck
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-37371-1
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (610 pages)
Collana	MARE Publication Series, , 2212-6279 ; ; 23
Disciplina	343.407692
Soggetti	Economic geography Microeconomics Environmental policy Physical geography Animal culture Economic Geography Environmental Policy Earth System Sciences Animal Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	INTRODUCTION -- 1. Small-scale fisheries in Europe.-2. The evolution of the EU Common Fisheries Policy and small-scale fisheries: Fighting for recognition -- 3. Focusing on the problems and the management of small-scale fisheries in Greece: Myopia, presbyopia or astigmatism? -- 4. Small-scale fisheries in Spain: challenges and prospects -- 5. Small-scale fisheries in Portugal -- 6. The unexploited potential of Small Scale Fisheries in Italy: analysis and perspectives on the status and resilience of a neglected fishery sector -- 7. Small scale fisheries in France: activity and governance issues -- 8. How is fishery management perceived by Croatian small-scale fishermen: Should I stay or should I go? -- 9. Fishing in the NE Adriatic, Slovenia: from borders to projects -- 10. Governance and socio economic implications of the Black Sea small scale fisheries (Bulgaria) -- 11. Small-scale fisheries in Romania: Transformation, vulnerability and change in a sturgeon fishermen

community from the Danube Delta Biosphere Reserve (Romania) -- 12. The current status and challenges facing the small-scale fisheries of Turkey -- 13. Small-scale fisheries in Malta: trends and challenges -- 14. Losing space: exploring the Blue Economy and the marginalisation of the small-scale fishers in Cyprus -- 15. Small-scale fisheries in the United Kingdom. -- 16. Learning from experience in Irish inshore fisheries management. -- 17. Small-scale fisheries in Iceland: Local voices and global complexities. -- 18. "...here in my heart" The important of small-scale fishing for Greenlandic society and as a way of life -- 19. Title Small-scale fisheries in Belgium -- 20. Small-scale fisheries in the Netherlands; learning from governance responses for a better future. -- 21. Small scale fisheries in Germany -- 22. Fisheries in Denmark -- 23. Who won, who lost within the Polish coastal fisheries -- 24. "Nice harbour but where are the fishers?" Critical insight into fisheries policies and its effects to small-scale fisheries in Estonia -- 25. Swedish small-scale fisheries in the Baltic Sea -- 26. Finnish small-scale fisheries: marginalization or revival? -- 27. Small scale fisheries in Norway -- 28. Challenges of governing coastal fisheries in Northwest Russia -- 29. Small-scale fisheries in Europe: tenure, markets, inclusiveness and governance challenges -- 30. The future of small-scale fisheries in Europe.

Sommario/riassunto

This book offers a comprehensive account of the status and dynamics of people participating in the small-scale fisheries (SSF) of Europe. It covers the situation of SSF in 25 coastal countries, thereby providing a portrait of almost every coastal country on the continent and analyzing the recent evolution of the sector. Small-scale fisheries are argued to be extremely important in Europe, as they provide employment and welfare, while increasing food sovereignty and maintaining communities in coastal areas. The recent worldwide focus on SSF derives from their environmental sustainability, which distinguishes many of their activities from those of large-scale fisheries. This book analyses the diversity of SSF and shows how fishing communities have sometimes developed successful governing models, demonstrating social and economic resilience. While the book emphasizes the strengths of SSF and the synergies that occur with other marine sectors, it also presents cases of failure, in which collective action and policy have actually contributed to a weakening of the sector. In this context, the book shows how governmental policies toward SSF vary considerably from country to country, in a way that is not entirely consistent with European policies.
