

1. Record Nr.	UNINA9910392748103321
Titolo	Advanced Graphic Communication, Printing and Packaging Technology : Proceedings of 2019 10th China Academic Conference on Printing and Packaging // edited by Pengfei Zhao, Zhuangzhi Ye, Min Xu, Li Yang
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-15-1864-5
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (891 pages)
Collana	Lecture Notes in Electrical Engineering, , 1876-1100 ; ; 600
Disciplina	686.22
Soggetti	Signal processing Image processing Speech processing systems Optical data processing Industrial engineering Production engineering Printing Publishers and publishing Signal, Image and Speech Processing Computer Imaging, Vision, Pattern Recognition and Graphics Industrial and Production Engineering Printing and Publishing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Color Science and Technology -- Image Processing Technology -- Digital Media Technology -- Printing Technology -- Packaging Technology -- Mechanical and Electronic Engineering -- Information Engineering and AI Technology -- Printing Materials and Detection Technology. .
Sommario/riassunto	This book includes a selection of peer-reviewed papers presented at the 10th China Academic Conference on Printing and Packaging, which was held in Xi'an, China, on November 14–17, 2019. The conference was jointly organized by the China Academy of Printing Technology, Beijing Institute of Graphic Communication, and Shaanxi University of

Science and Technology. With 9 keynote talks and 118 papers on graphic communication and packaging technologies, the conference attracted more than 300 scientists. The proceedings cover the latest findings in a broad range of areas, including color science and technology, image processing technology, digital media technology, mechanical and electronic engineering, Information Engineering and Artificial Intelligence Technology, materials and detection, digital process management technology in printing and packaging, and other technologies. As such, the book appeals to university researchers, R&D engineers and graduate students in the graphic arts, packaging, color science, image science, material science, computer science, digital media, and network technology.
