1. Record Nr.   UNINA9910392754503321

   Titolo   Principia Designae Pre-Design, Design, and Post-Design : Social
                     Motive for the Highly Advanced Technological Society / / edited by
                     Toshiharu Taura

   Pubbl/distr/stampa Tokyo : , : Springer Japan : , : Imprint : Springer, , 2015

   ISBN   4-431-54403-8

   Edizione   [1st ed. 2015.]

   Descrizione fisica 1 online resource (254 p.)

   Collana   SpringerBriefs in Applied Sciences and Technology

   Disciplina   005.7
                     620
                     620.0042
                     745.2

   Soggetti   Engineering design
                     Industrial design
                     Application software
                     Engineering Design
                     Industrial Design
                     Information Systems Applications (incl. Internet)

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Description based upon print version of record.

   Nota di bibliografia Includes bibliographical references and index.

   Nota di contenuto The Design of Technology: Bridging Highly Advanced Science &
                     Technology with Society Through the Creation of Products --
                     Supporting Creativity in Engineering Design - A Position Paper -- Sign,
                     Design, Communication -- A Sense of Design: the embedded motives
                     of nature, culture, and future -- The Pagoda Design Space: Extending
                     the Scope of Design -- Motivation in Design as a Driving Force for
                     Defining Motives of Design -- Affording Design, Affording Redesign --
                     Towards Data Democracy beyond FUKUSHIMA -- 'Design-Society'
                     Cycle: A Case Study on the Story of Longitude -- Negative Technology
                     Possibilities for a Contribution from Eco-ethica: A Combination of
                     Ethics and the Invisible -- Social Interactions in Post-Design Phases in
                     Product Development and Consumption: Computational Social Science
                     Modeling -- Modelling (pre-)design activities with a multi-stakeholder
                     perspective -- A new perspective for risk management: a study of the

design of generic technology with a matroid model in C-K theory -- Computational Schema - a Facilitator for Crowdsourcing Design in Pre-Design Phase, Design Phase and Post-Design Phase.

Sommario/riassunto	This book presents a broad design purview within the framework of "pre-design, design, and post-design" by focusing on the "motive of design," which implies an underlying reason for the design of a product. The chapters are comprised of papers based on discussions at the "Design Research Leading Workshop" held in Nara, Japan, in 2013. This book encourages readers to enhance and expand their thinking within a widened design perspective.
