

1. Record Nr.	UNINA9910403764403321
Autore	Cheng Zekun
Titolo	Design and practice of cruise ports / / by Zekun Cheng, Lei Gong, Chen Li
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , 2020 ©2020
ISBN	981-15-5428-5
Descrizione fisica	1 online resource (332 pages)
Collana	Springer Series on Naval Architecture, Marine Engineering, Shipbuilding and Shipping, , 2194-8445 ; ; 4
Disciplina	627.2
Soggetti	Harbors Building Transportation engineering Traffic engineering Civil engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book focuses on design technologies and practical engineering applications in connection with cruise ports and terminals. After a brief introduction to cruise ships and global cruise ports, it addresses the location, structure and layout of cruise terminals, the technologies involved, cruise terminal buildings and supporting facilities. The book also explores practical engineering cases, including projects that the authors have worked on, such as the Shenzhen Prince Bay and Shanghai Wusongkou International Cruise Terminal projects. Systematically discussing the design and engineering aspects of domestic and international cruise terminals, the book offers a practical reference guide for engineers, researchers, practitioners and policymakers in relevant fields.
