

1. Record Nr.	UNINA9910407724303321
<b>Titolo</b>	Non-Melanoma Skin Cancer and Cutaneous Melanoma : Surgical Treatment and Reconstruction / / edited by Othon Papadopoulos, Nikolaos A. Papadopoulos, Grigoris Champsas
<b>Pubbl/distr/stampa</b>	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
<b>ISBN</b>	3-030-18797-7
<b>Edizione</b>	[1st ed. 2020.]
<b>Descrizione fisica</b>	1 online resource (841 pages)
<b>Disciplina</b>	616.99477
<b>Soggetti</b>	Surgery, Plastic Dermatology Oncology Plastic Surgery Càncer de pell Melanoma Cirurgia oncològica Llibres electrònics
<b>Lingua di pubblicazione</b>	Inglese
<b>Formato</b>	Materiale a stampa
<b>Livello bibliografico</b>	Monografia
<b>Nota di contenuto</b>	Introduction: Skin Cancer and Melanoma from Dermatological point of view -- Skin Cancer and Melanoma from Oncological point of view -- Skin Cancer and Melanoma from Pathological point of view -- Skin Cancer and Melanoma from Radiotherapy point of view -- Skin Cancer and Melanoma from Nuclear Medicine point of view -- Skin Cancer and Melanoma from Plastic and Reconstructive Surgery point of view. Surgical Treatment and Reconstruction of localized Skin Cancer and Melanoma: Head and Neck -- Trunk -- Extremities. Surgical Treatment and Reconstruction of Lymph Node Metastases: The Sentinel Lymph Node -- Lymphadenectomy -- Reconstruction of Lymphedema.
<b>Sommario/riassunto</b>	This book describes and illustrates the reconstructive surgical techniques appropriate in patients with skin cancer and melanoma, according to anatomic region, with a view to enabling readers to perform these techniques optimally. An extensive introductory section

discusses skin cancer and melanoma from the points of view of dermatology, oncology, pathology, radiotherapy, nuclear medicine, and plastic and reconstructive surgery. The surgical treatment and reconstruction of localized skin cancer and melanoma in each anatomic region are then explained step by step with the aid of a wealth of color photos. The final section similarly presents the techniques and procedures appropriate for the surgical treatment and reconstruction of lymph node metastases, covering the sentinel node, lymphadenectomy, and lymphedema. This book will be immensely valuable for plastic and general surgeons, and also of interest for dermatologists, pathologists, oncologists, and nuclear medicine physicians.
