Nota di contenuto	Foreword -- Overview of the Mekong River Basin -- Summary of Flood and Drought in Mekong River Basin -- Analysis of flood Character in the Mekong River Basin -- Analysis of Drought Character in the Mekong River Basin -- Overview of Measures and Assessment of Capacity for Flood Prevention and Drought Relief -- Main Findings and Recommendations -- Appendix 1 Introduction of THREW Model -- Appendix 2 Technology Exchange and Capacity Building.
Sommario/riassunto	This book provides an overview of flood and drought in the Lower Mekong Basin, reviews the characteristics of flood and drought, and details structural and non-structural measures for flood and drought mitigation employed in the basin countries, as well as their flood and drought mitigation capacity. Given its scope, the book offers a valuable resource for researchers and engineers in the field of transboundary rivers, especially those with an interest in the Lower Mekong River. .
