Titolo	The Defenders of Liberty : Human Nature, Individualism, and Property Rights / / by Neema Parvini
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2020
ISBN	9783030394523 3030394522
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (324 pages)
Disciplina	320.51 330
Soggetti	Economics Political science Political science - Philosophy Political Theory Political Philosophy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Liberty, Human Nature, Individualism, and Property Rights -- 2. The Machiavellians -- 3. Hobbes and Locke on Human Nature; Locke on Property Rights -- 4. The Enlightenment -- 5. The Nineteenth Century -- 6. The Austrian School -- 7. The London School -- 8. What Went Wrong and What is to be Done?.
Sommario/riassunto	The Defenders of Liberty presents a history of economic liberalism from the Renaissance to the present. It chronicles the tradition of thought that sees human nature as social yet self-interested, methodological individualism as its key analytical tool, and property rights as foundational to a civilised society. In the development of this way of thinking, it considers the contributions of many key thinkers including Niccolò Machiavelli, Thomas Hobbes, John Locke, Richard Cantillon, A.J. R. Turgot, David Hume, Adam Smith, Nassau William Senior, Richard Cobden, Herbert Spencer, Jean-Baptiste Say, Carl Menger, William Stanley Jevons, Gaetano Mosca, Eugen Böhm-Bawerk, Vilfredo Pareto, Phillip Wicksteed, Edwin Cannan, Ludwig von Mises, Lionel Robbins, F.

A. Hayek, W.H. Hutt, Milton Friedman, George Stigler, Murray N. Rothbard, James M. Buchanan, and Thomas Sowell. The book contends that liberalism needs to be grounded in realism, and that it has been derailed whenever economists have deviated from an explicitly realist understanding of human nature, individualism and property rights. It argues that the cause of liberalism was compromised by errors in economic reasoning by such major figures as David Ricardo, John Stuart Mill, Alfred Marshall, A.C. Pigou, and John Maynard Keynes. In diagnosing what has gone wrong for liberalism in the twenty-first century, *The Defenders of Liberty* argues against substituting mathematical abstraction for causal realism; it opposes interventionist central banking; it seeks to recover economic liberalism from social and political liberalism, which are somewhat unrelated schools of thought; it resists a view of human nature rooted in selfishness or atomised individualism; and finally alerts defenders of freedom to the ruthless but effective language games played by their opponents. This book will be of interest to the educated general reader as well as undergraduates and postgraduates in disciplines such as economics, political theory and philosophy.
