Sommario/riassunto

The book encompasses the broad field of e-Finance and its transformation. After reviewing the developments in the economic and the technology fields, it examines how the insurance, banking, and securities trading firms are bringing about the digital revolution and adapting in the same breath to the changed socio-economic environment. Add to it, the "Rogue Elements", the field of cyber crimes is covered on a priority basis. The book also covers the inevitable changes in fields of HR and Marketing and the crucial role of the regulators. Looked at through the eyes of Corporate Planner, the book does provide a road map for the financial institutions (FIs).
