

1. Record Nr.	UNINA9910409691503321
Titolo	GeNeDis 2018 : Geriatrics // edited by Panayiotis Vlamos
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-32637-3
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (154 pages)
Collana	Advances in Experimental Medicine and Biology, , 2214-8019 ; ; 1196
Disciplina	616.83
Soggetti	Neurosciences Medical genetics Neuroscience Medical Genetics Genètica humana Neurociències Neurologia geriàtrica Bioinformàtica Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	A hypothesis of circulated microRnas implication in high incidence of atrial fibrillation and other electrocardiographic abnormalities in cancer patients -- Central Line-associated Bloodstream Infections (CLABSI) Incidence and the role of obesity: a prospective, observational study in Greece -- Number of brain states in an N-body dynamical scenario according to the universal Bekenstein entropy bound -- Burden and sleeping disorders of family caregivers of Hemodialysis patients with Chronic Kidney Disease-End Stage. A cross-sectional study -- Quality of life in type 2 diabetes mellitus patients with neuropsychological deficits -- A framework for assessing the impact of information seeking behavior on cancer patients' long-term prognosis -- Sleeping Disorders and Health Related Quality of Life in Hemodialysis patients with Chronic Renal Disease in Greece -- Subjective Quality of Life, Religiousness and Spiritual Experience in Greek Orthodox Christians: Data from Healthy Aging and Patients with Cardiovascular Disease --

Mini-Mental State Examination: Greek normative data stratified by age and education in a large sample of 925 community-dwelling healthy participants -- The role of the family in the care of Alzheimer patients -- Prevalence of Stroke Cases in Warangal, Telangana Region, India: A Hospital-Based Case Study -- Compliance of Patients with Acute Coronary Syndrome with treatment following their hospitalization from the Cardiac Coronary Unit -- Using a Virtual Reality Serious Game to Assess the Performance of Older Adults with Frailty -- Characteristics and survival rates in ward patients requiring evaluation by Intensivist in Greece.

Sommario/riassunto

The 3rd World Congress on Genetics, Geriatrics, and Neurodegenerative Disease Research (GeNeDis 2018), focuses on recent advances in genetics, geriatrics, and neurodegeneration, ranging from basic science to clinical and pharmaceutical developments. It also provides an international forum for the latest scientific discoveries, medical practices, and care initiatives. Advanced information technologies are discussed, including the basic research, implementation of medico-social policies, and the European and global issues in the funding of long-term care for elderly people.
