

1. Record Nr.	UNINA9910409691703321
Titolo	Brief Introduction to Fisheries // edited by Xinjun Chen, Yingqi Zhou
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-15-3336-9
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (252 pages)
Disciplina	639.2
Soggetti	Wildlife Fish Aquatic ecology Animal ecology Fish & Wildlife Biology & Management Freshwater & Marine Ecology Animal Ecology Indústria pesquera Aqüicultura Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter I Preface -- Section 1 Definition and Characteristics of Fisheries -- 1Definition and classification of fisheries -- 2 Characteristics of fishery resources -- 3Characteristics of the fisheries industry -- Section 2 About this book -- 1Aim and scope -- 2 Research content of this book -- 3, Curriculum and Related Contents -- Section 3 Purpose of Introduction to Fisheries and its Role in Fisheries -- 1Purpose and Significance of Learning Introduction to Fisheries 2Role and position of fisheries in the national economy and society -- Section 4 The Role of Fisheries in the National Economy and Society -- 1Fisheries provide people with a rich source of protein -- 2Direct contribution of fisheries to national economic development -- 3Increasing National Fiscal and Foreign Exchange Income from Fisheries -- 4Fisheries are conducive to arranging the rural labour force and providing social employment rate -- 5Contribution of

fisheries to global sustainable development and aquatic ecosystems --
6Contribution of fisheries to the development of other industries --
Chapter II World Fisheries -- Section 1 Overview of the State of World
Fisheries Development -- 1, Overview of World Fisheries -- 2, Overview
of the world fishing industry -- 3, Overview of the world aquaculture
industry -- 4, Overview of world fisheries employment and fleets -- 5,
State of the world's marine fishery resources -- 6, Overview of World
Processing and Utilization of Aquatic Products -- 7, Overview of World
Trade in aquatic products -- 8, Overview of world fisheries
management -- Section 2 Distribution of Major Fishery Resources and
Fishery Areas in the World -- 1, Classification of major habitats of
fishery resources such as fish -- 2, Division of the world's fishing areas
-- 3, Resources of the world's inland waters and types of fisheries --
Section 3 Evolution and Structural Changes in World Fisheries
Production -- 1, Evolution of world fisheries production -- 2, Changes
in the production structure of the world's fisheries -- Section 4 World
Ocean Fishing -- 1, Main target groups of the world's marine fisheries
-- 2, Development and utilization of fishery resources in various sea
areas of the world -- Section 5 World Aquaculture -- 1, Main target
groups for world aquaculture 2, World Aquaculture Development --
Section 6 World Aquatic Processing and Utilization Industry -- 1, World
Status of Aquatic Products Processing and Utilization -- 2, Status of
by-product use of fisheries -- 3, World Trends in the Processing and
Utilization of Aquatic Products -- Section 7 Modern Leisure Fisheries --
1, Concepts and Forms of Leisure Fisheries -- 2, Overview of leisure
fisheries development -- 3, International Management and
Development of Leisure Fisheries -- Section 8 World Trade in Fishery
Products -- 1, Status and status of World Trade in fishery products in
international trade -- 2, Countries that trade in the world's major fish
products -- 3, World consumption of fish products -- 4, Major
fisheries products in world trade -- 5, Trends in world trade in fish
products -- Section 9 Status and trends in international fisheries
management -- 1, Overview of the international fisheries management
development process -- 2, Analysis of trends in international fisheries
management -- 3, Nature, categories and functions of major
international fisheries organizations -- Section 10 Major problems and
trends in world fisheries -- 1, Main Problems in the World's Fisheries
-- 2, Future trends in international fisheries -- Chapter III Overview of
the world's major fishing nations -- Section 1 China Fisheries and --
Section 2 Japan Fisheries -- Section 3 The United States Fisheries --
Section 4 Indonesia Fisheries -- Section 5 India Fisheries -- Chapter V
Overview of Major Fisheries Studies -- Section 1 Overview of Fishing
Science -- 1, The concept and research content of fishing science -- 2,
Research Status and Development Trend of Fishing Science -- Section 2
Overview of Fisheries Resources -- 1, The Concept and Research
Content of Fisheries Resources -- 2, Research Status and Development
Trend of Fisheries Resources -- Section 3 Aquatic Growth and Culture
-- 1, The Concept and Research Content of Aquatic Cultivation 2,
Research Status and Development Trend of Aquatic Growth and
Breeding -- Section 4 An Overview of the Processing and Utilization of
Aquatic Products -- 1, The concept of processing and utilization of
aquatic products and its research content -- 2, Research status and
development trend of aquatic products processing and utilization --
Section 5 Overview of Fisheries Information Technology -- 1, The
Concept of Fisheries Information Technology and its Research Contents
-- 2, Research Status and Development Trend of Fisheries Information
Technology -- Section 6 Overview of fisheries economics -- 1, The
Concept of Fisheries Economics and Its Research Contents 2, Research

Status and Development Trend of Fisheries Economics -- Section 7
Overview of Fisheries Resources Economics -- 1, The Concept of the
Economics of Fishery Resources and Its Research Contents -- 2,
Research Status and Development Trend of Fisheries Resources
Economics -- Chapter VI Sustainable Development of Fisheries --
Section 1 Overview of Sustainable Development Theory -- 1, From
economic growth to sustainable development -- 2, The concept of
sustainable development -- Section 2 The Sustainable Use of Fishery
Resources -- 1, The basic reason and model of change of fishery
resources -- 2, The general process of exploitation and utilization of
fishery resources and the reason of decline based on economics -- 3,
The concept and connotation of sustainable utilization of fishery
resources -- Section 3 International Action for Sustainable
Development of Fisheries- Blue Growth -- 1, Overview of the 2030
Agenda for Sustainable Development -- 2, Agenda 2030 and
sustainable fisheries development -- 3, Progress in international action
for the sustainable development of fisheries -- 4, Blue Growth --
Section 4 Assessment of the sustainable use of fishery resources in
global marine areas -- 1, Changes in the average trophic level of global
catches -- 2, Potential change mechanisms of MTL -- 3, Impact of
Fisheries Development Process on the Effectiveness of 3.25 MTL
Indicators -- Section 5 Carbon Sink Fisheries -- 1, The concept of
carbon sink fisheries and its role -- 2, Carbon sinks in marine fisheries
and their development strategies -- Chapter VII Global environmental
change and fisheries -- Section 1 Overview of Global Environmental
Change -- 1, Eutrophication -- 2, Global warming -- 3, Destruction of
the ozone layer -- 4, Ocean acidification -- Section 2 Impact of major
global environmental change events on fisheries -- 1, the effects of
eutrophication on fisheries -- 2, Impact of global warming on fisheries
-- 3, Effects of ozone layer destruction on fisheries -- 4, Ocean
acidification and its impacts on fisheries -- Section 3 Global Climate
Change and Marine Ecosystems -- 1, Changes in fisheries in different
marine ecosystems -- 2, High latitude spring water bloom system -- 3,
Coastal boundary systems -- 4, Upstream System on the Western
Boundary -- 5, Equatorial upwelling system -- 6, semi-enclosed sea --
7, Sub-tropical circulation -- Section 4 Impact of Global Climate
Change on Aquaculture -- 1, Overview of global climate change
impacts on aquaculture -- 2, Vulnerability of climate change to
aquaculture by region, country and species -- 3, International actions
to reduce the impact of climate change on aquaculture -- Section 5
Vulnerability assessment of food security under the impacts of climate
change on marine fisheries -- References.

Sommario/riassunto

This book offers an introduction to aquaculture sciences and fisheries, discussing the concepts and basic characteristics of fisheries, fishery resources and the related industries, as well as the status of fisheries in various countries around the globe. The book also examines aquaculture, aquatic product processing and utilization, fishery information technology, and fishery economics and management, in addition to hot topics such as blue growth in fisheries, carbon sink fisheries, and global environmental changes in the context of fisheries. Given its scope, it is a valuable resource for undergraduate students in the field as well professional requiring a basic understanding of fisheries.
