

1. Record Nr.	UNINA9910409843903321
Autore	Pinfield Stephen
Titolo	Open access in theory and practice : the theory-practice relationship and openness // Stephen Pinfield, Simon Wakeling, David Bawden, and Lyn Robinson
Pubbl/distr/stampa	Taylor & Francis, 2020
ISBN	0-429-27684-2
Descrizione fisica	1 electronic resource (256 p.)
Disciplina	070.5/7973
Soggetti	IT, Internet & electronic resources in libraries Library & information services Bibliothèques Édition en libre accès
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Part 1: Foundations: Open Access -- Open Access: Beginnings and Developments -- Open Access: Components and Relationships -- Part 2: Foundations: Theory and Practice -- Theory: Definitions and Disciplines -- Theory and Practice: Relationships and Gaps -- Part 3: Perspectives: Theory in Research -- Theory in Open Access Studies: Scoping and Analysing -- Theory in Open Access Studies: Using and Generating -- Part 4: Perspectives: Theory in Action -- Theory in Open Access Practice: Theorising and Acting -- Theory in Open Access Practice: Engaging and Evading -- Part 5: Integrations: Theory, Practice, and Open Access -- Theory and Practice: Barriers and Bridges -- Open Access: Debates and Priorities -- Conclusion: Open Access in Theory and Practice.
Sommario/riassunto	"Open Access in Theory and Practice investigates the theory-practice relationship in the domain of open access publication and dissemination of research outputs. Drawing on detailed analysis of the literature and current practice in OA, as well as data collected in detailed interviews with practitioners,

policymakers,  
and researchers, the book discusses what constitutes “theory”, and how  
the  
role of theory is perceived by both theorists and practitioners.  
Exploring the  
ways theory and practice have interacted in the development of OA, the  
authors discuss what this reveals about the nature of the OA  
phenomenon  
itself and the theory-practice relationship.  
Open Access in Theory and Practice contributes to a better  
understanding of  
OA and, as such, should be of great interest to academics, researchers,  
and students  
working in the fields of information science, publishing studies, science  
communication, higher education policy, business, and economics. The  
book  
also makes an important contribution to the debate of the relationship  
between  
theory and practice in information science, and more widely across  
different  
fields of the social sciences and humanities."
