| Sommario/riassunto | This volumes presents select papers presented during the International<br>Conference on Photonics, Communication and Signal Processing<br>Technologies held in Bangalore from July 18th to 20th, 2018. The<br>research papers highlight analytical formulation, solution, simulation,<br>algorithm development, experimental research, and experimental<br>investigations in the broad domains of photonics, signal processing<br>and communication technologies. This volume will be of interest to<br>researchers working in the field. |
