Titolo	Energy Security and Green Energy : National Policies and the Law of the WTO // by Angelica Rutherford
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-45555-6
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XI, 169 p. 2 illus., 1 illus. in color.)
Collana	International Law and Economics, , 2364-1851
Disciplina	333.79
Soggetti	Energy security International law Trade Natural resources Energy policy Energy systems Energy Security International Economic Law, Trade Law Natural Resource and Energy Economics Energy Policy, Economics and Management Energy Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- Energy Security and Green Energy in Great Britain: The Discourse of the Lights Going Out -- Energy Security and Green Energy in Brazil: The Discourse of Economics Development -- The Applicability of the Law of the WTO to Green Energy Security -- Conclusion.
Sommario/riassunto	This book shows how the links between energy security and national and international law and policies on green energy pose challenges to a transition towards a green energy system. Based on empirical work carried out in two very different country case studies – Great Britain and Brazil – this book attempts to foster a better understanding of the role played by energy security in constructing and deconstructing green energy policy initiatives. The broad range of views raised in national

contexts leads to legal disputes in international forums when attempts are made to address the issues of this energy security/green energy interplay. As such, building on the findings of the case studies, this book then analyses the interplay between energy security and green energy development in international trade law as encapsulated in the law of the World Trade Organisation (WTO). Finally, the author proposes a way forward in creating the legal space in the law of the WTO for trade restrictive measures aimed at ensuring green energy security.
