Sommario/riassunto

This topical book addresses contemporary concern with the interconnections between geography and morality. Covers both the geographical context of morality, and moralities in geographical methods and practices. Contains up-to-date case studies based on original research. Deals with controversial issues, such as problems of globalization, European integration, human rights in Nigeria, territorial conflict in Israel, and land reform in post-apartheid South Africa. The editors are well-published leading international authorities. The contributors ar
