

1. Record Nr.	UNINA9910411937603321
Titolo	Women's Health in Autoimmune Diseases // edited by Shefali Khanna Sharma
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-15-0114-9
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XIII, 278 p. 34 illus., 23 illus. in color.)
Disciplina	616.9780082
Soggetti	Gynecology Maternal and child health services Rheumatology Maternal and Child Health Malalties autoimmunitàries Ginecologia Reumatologia Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Does genetics play a role in Auto-immune Diseases? -- Chapter 2. Influence of Gender on Auto-Immune Rheumatic diseases -- Chapter 3. Sex Bias in Systemic Lupus Erythematosus and Sjögren's Syndrome -- Chapter 4. Antibody Estimation in Pregnancy -- Chapter 5. Antiphospholipid Antibody Syndrome (APS) -- Chapter 6. Fertility and Pregnancy in Auto-Immune Diseases -- Chapter 7. Update on use of Biologic and Targeted Synthetic Drugs in Pregnancy -- Chapter 8. Managing menstrual Irregularities in Auto-Immune Diseases -- Chapter 9. Fertility Preservation in Women with Auto-Immune Diseases Treated with Gonadotoxic Agents -- Chapter 10. Pre conception care and Counselling in Auto-Immune Disorders -- Chapter 11. Effect of Pregnancy on Auto-Immune Diseases -- Chapter 12. Management of Lupus Flare during Pregnancy -- Chapter 13. Lupus Nephritis & Pregnancy -- Chapter 14. Pregnancy in Systemic Vasculitis -- Chapter 15. Managing APLA during Pregnancy -- Chapter 16. Scleroderma and Pregnancy -- Chapter 17. Management and Monitoring of anti-Ro/La

positive mother -- Chapter 18. Management of Sjögren's Syndrome during Pregnancy -- Chapter 19. Maternal Mortality and Morbidity in Auto-Immune Diseases -- Chapter 20. Anti-Rheumatic Drugs in Pregnancy -- Chapter 21. Non- Steroidal Anti- Inflammatory Drugs Use During Pregnancy and Lactation: Effects on Mother and Child -- Chapter 22. Management of Neonate with Heart Block -- Chapter 23. Compilation of Indian data -- Chapter 24. Osteoporosis in Autoimmune Rheumatic Diseases -- Chapter 25. Menopause in Auto-Immune Disease and Hormone Replacement Therapy -- Chapter 26. Fibromyalgia.-.

Sommario/riassunto

This book focuses on conveying autoimmune disease expertise to gynecologists and other clinicians, allowing them to approach the treatment of each disease in a pragmatic manner. Each chapter reviews the current literature on treatments for autoimmune diseases, especially under special circumstances like pregnancy; rating disease severity; and providing practical guidelines based on the current state of knowledge. How autoimmune diseases affect fertility, and how to best prepare patients with these diseases for pregnancy, is also addressed. Unfortunately the current literature does not provide effective guidelines. This book addresses that shortcoming, and will help clinicians to implement appropriate treatments, while also outlining possible alternatives in order to provide effective treatment for women living with autoimmune diseases. It also explores important issues concerning autoimmune diseases in women such as: lupus nephritis, vasculitis, Sjogren's syndrome, anti phospholipid syndrome and systemic sclerosis, and their potential effects on unborn children. Given its scope, the book offers a valuable reference guide for Practicing Clinicians, Rheumatologists and Gynecologists, among others.
