

1. Record Nr.	UNINA9910411938103321
Autore	Balaji Natarajan
Titolo	Textbook of Nasal Tip Rhinoplasty : Open Surgical Techniques / / by Natarajan Balaji
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-48157-3
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XXI, 393 p. 284 illus. in color.)
Disciplina	617.952 617.5230592
Soggetti	Plastic surgery Otorhinolaryngology Oral surgery Maxillofacial surgery Plastic Surgery Oral and Maxillofacial Surgery Rinoplastia Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	CHAPTER 1 - Introduction to Nasal Tip Rhinoplasty -- CHAPTER 2 - Surgical Anatomy of the Nasal Tip -- CHAPTER 3 - Aetiology, Pathology and Pathogenesis of Nasal Tip Deformities -- CHAPTER 4 - Assessment of the Nasal Tip -- CHAPTER 5 - Nasal Tip Rhinoplasty - Consultation Process -- CHAPTER 6 - Surgical Principles in Nasal Tip Rhinoplasty -- CHAPTER 7 - Open (External) Approach - Incision and flap elevation -- CHAPTER 8 - Suture techniques in Nasal Tip Rhinoplasty -- CHAPTER 9 - Grafting techniques in Nasal Tip Rhinoplasty -- CHAPTER 10 - Non suture and Non grafting techniques in Nasal Tip Rhinoplasty -- CHAPTER 11 - Management of Nasal Septum. A "Step-Ladder" approach -- CHAPTER 12 - Controlling the Nasal Dorsum -- CHAPTER 13 - Alar Base Surgery -- CHAPTER 14 - Cleft Lip Nasal Tip Rhinoplasty -- CHAPTER 15 - Closing the Skin Flap in Open Approach Nasal Tip Rhinoplasty -- CHAPTER 16 - Postoperative care and Complications

after nasal tip rhinoplasty -- CHAPTER 17- Nasal Valve Surgery – A “new” Concept -- CHAPTER 18 - Surgical Algorythms in Nasal Tip Rhinoplasty -- CHAPTER 19 – Case Studies in Nasal Tip Rhinoplasty -- CHAPTER 20 - Ethics considerations in Rhinoplasty.

#### Sommario/riassunto

This textbook addresses the growing need for a manual that teaches when and how to perform nasal tip rhinoplasty through an “Open-Approach”. Practitioners will value the comprehensive coverage of the topic. The actual surgical steps involved in the various techniques form the main body of the work, while a wealth of intra-operative photographs facilitate the learning experience. The views expressed are solely those of the author, based on his personal experience. He makes no claims to the content being exhaustive or the only possible approach and has extensively referenced various experts in the field who have contributed to this topic. This book represents the author’s view of how to approach nasal tip deformities, and how to arrive at an algorithm in putting together various surgical techniques in a “sequence” to achieve meaningful results. The book also explores the clinical correlation, which is just as or arguably even more important in nasal tip surgery. The main chapters will focus on the suture, grafting, non-suture and non-grafting techniques in nasal tip reconstruction. Drawing on the author’s surgical experience, gathered in the course of over 1700 open tip surgeries over 23 years, the book fills a lacuna in teaching and training and will be of interest to all trainees and consultant surgeons seeking concise information on nasal tip surgery.
