

1. Record Nr.	UNINA9910411951303321
Titolo	Innovations in Community-Based Crime Prevention : Case Studies and Lessons Learned / / edited by Robert J. Stokes, Charlotte Gill
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-43635-7
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (261 pages) : illustrations
Disciplina	363.230973
Soggetti	Crime—Sociological aspects Public policy Social service Crime and Society Public Policy Social Work
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Crime, Place and Community Contexts: An Introduction to the Byrne Criminal Justice Innovation Program -- Think Nationally, Act Locally: An Overview of BJCI Communities and the Challenges of Community Capacity Deficits -- Case Studies from 6 Neighborhoods -- Five Years In: The Current Impacts of BJCI -- The Death and Life of Community-Based Crime Prevention Partnerships and the Future Role of the Federal Government.
Sommario/riassunto	This book explores multi-year community-based crime prevention initiatives in the United States, from their design and implementation, through 5-year follow ups. It provides an overview of programs of various sizes, affecting diverse communities from urban to rural environments, larger and smaller populations, with a range of site-specific problems. The research is based on a United States federally-funded program called the Byrne Criminal Justice Initiative (BJCI) which began in 2012, and has funded programs in 65 communities, across 28 states and 61 cities. This book serves to document the process, challenges, and lessons learned from the design and implementation of

this innovative program. It covers researcher-practitioner partnerships, crime prevention planning processes, programming implementation, and issues related to sustainability of community-policing initiatives that transcend institutional barriers and leadership turnover. Through researcher partnerships at each site, it provides a rich dataset for understanding and comparing the social and economic problems that contribute to criminality, as well as the conditions where prosocial behavior and collective efficacy thrive. It also examines the future of this federally-funded program going forward in a new Presidential administration. This work will be of interest to researchers in criminology and criminal justice, particularly with an interest in translational/applied criminology and crime prevention, as well as related fields such as public policy, urban planning, and sociology.
