Sommario/riassunto	<p>These proceedings contain the papers selected for inclusion in the program for the eighteenth ACM Workshop on Privacy in the Electronic Society (WPES 2019), held in conjunction with the 26th ACM Conference on Computer and Communications Security (CCS 2019) on November 11, 2019 in London, United Kingdom. In response to the workshop's call for papers, 67 submissions were received. These papers were evaluated by a Program Committee comprised of 58 researchers whose backgrounds include a diverse array of topics related to privacy. As a rule, each paper was reviewed by three members of the Program Committee, with an average of 2.9 reviews per paper. Each paper was assessed in terms of importance, novelty, technical quality, and potential to stimulate discussion at the workshop. After a period of online discussion, the Program Committee selected 14 full papers and 5 short papers for presentation at WPES, leading to a full paper acceptance rate of 21% and an overall acceptance rate of 28%.</p>
