

1. Record Nr.	UNINA9910412306803321
Titolo	Proceedings of the XIII Brazilian Symposium on Software Components, Architectures, and Reuse // Association for Computing Machinery
Pubbl/distr/stampa	New York, New York : , : Association for Computing Machinery, , , 2019
Descrizione fisica	1 online resource (145 pages) : illustrations
Collana	ACM Other Conferences
Disciplina	004.62
Soggetti	Component software Computer software - Reusability Software architecture
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Welcome to SBCARS 2019, the 13th Brazilian Symposium on Software Components, Architectures, and Reuse, Salvador, Brazil, September 23-24, 2019. The symposium is promoted by the Brazilian Computer Society (SBC) and brings together software engineering researchers and practitioners who are engaged with the challenges of software product lines, component-based development, SOA, software architecture, modularization, code analysis, reuse, and other related topics. This year, for the tenth time, the symposium is part of the Brazilian Conference on Software: Theory and Practice (CBSOFT 2019), which integrates three other important symposia: the Brazilian Symposium on Software Engineering (SBES), the Brazilian Symposium on Programming Languages (SBLP), and the Brazilian Symposium on Systematic and Automated Software Testing (SAST).
